

Latha Shree K P

Full Stack Software Engineer

Wilmington, NC | lathaprabhakar240@gmail.com | +1 (910) 262-9076 | linkedin.com/in/lathashreekp240 | github.com/latha0624

SUMMARY

Full stack engineer with 4+ years building production web apps in Angular, Node.js, TypeScript, and MongoDB. Delivered enterprise features for networking clients, designed REST/GraphQL APIs, and shipped UI and backend work in Agile teams. Completing an M.S. in Computer Science at UNCW.

TECHNICAL SKILLS

Languages JavaScript, TypeScript, Python, HTML, CSS
Frontend Angular, RxJS, component-driven UI, responsive layouts
Backend Node.js, NestJS, REST APIs, GraphQL, Django (familiar)
Data MongoDB, data modeling, API contracts
Tooling Git, CI/CD, Docker, unit testing, Selenium, Agile/Scrum

EXPERIENCE

Software Engineer Intern

Jan 2026 – Present

Lunar Tech AI — USA

Stack: Python, JavaScript, TypeScript, Babel, REST APIs

- Build features that connect model inference services to user-facing web flows over REST APIs.
- Improve JavaScript/TypeScript build reliability with Babel for features consuming AI service outputs.
- Debug end-to-end issues across API contracts, frontend consumption, and runtime failures.

Senior Software Engineer

Jul 2023 – Dec 2025

NTT India GDC Pvt. Ltd. — Bangalore, India

Stack: JavaScript, TypeScript, Angular, Node.js, MongoDB, REST, GraphQL

- Owned full-stack feature delivery for enterprise apps used by networking clients including Cisco, Palo Alto, Aruba, and Juniper.
- Designed and implemented Node.js APIs and GraphQL/REST endpoints for complex data flows and automation workflows.
- Built Angular UI modules for multi-client enterprise workflows with reusable components and maintainable TypeScript.
- Mentored junior engineers via code reviews and onboarding; promoted from Software Engineer for delivery ownership and technical leadership.

Software Engineer

Sep 2021 – Jun 2023

NTT India GDC Pvt. Ltd. — Bangalore, India

Stack: JavaScript, Angular, Node.js, MongoDB, GraphQL, CI/CD

- Developed and maintained full-stack features across Angular frontends and Node.js/MongoDB backends in production.
- Implemented GraphQL and REST integrations between UI and services; added unit tests and CI checks for safer releases.
- Built automation that reduced repetitive manual testing and improved release readiness for recurring workflows.

PROJECTS

Taxidi — Tourism Management Platform

UNCW

Stack: JavaScript, Node.js, MongoDB, REST APIs

- Built frontend/backend features for package creation, booking, and payment processing; modeled MongoDB collections and REST endpoints for catalog, reservations, and order state.

KITA — Feedback Chatbot

Stack: Python, JavaScript, automation/testing tooling

- Developed an automated feedback chatbot with validation scripts and functional tests across conversational workflow paths.

EDUCATION

M.S., Computer Science (In Progress)

Expected [Month Year]

University of North Carolina Wilmington — Wilmington, NC

B.E., Information Science and Engineering

[Graduation Year]

Acharya Institute of Technology — Bangalore, India

CERTIFICATIONS

Angular & React · Kubernetes & GraphQL · Python for Data Analysis · Machine Learning Foundations
